The Pontifical University of Salamanca has its roots in the 13th century, when the collaboration between the Pope and the King gave rise to an institution capable of bringing together knowledge about man, society, nature, history and God. UPSA was founded in 1940 to restore the faculties of Theology and Canon Law, excluded from Spanish university classrooms in 1852.

Today it is one of the best universities in Spain in terms of academic performance and job placement, and has been ranked among the TOP 3 Spanish universities in Teaching and Learning in the CYD ranking.
