

DATA SHEET**1. General data**

Project summary:

Project summary
AIRMOB (Developing Skills and Capabilities for Innovative Air Mobility) is a large and complementary consortium that is setting up 5 regional clusters (Italy, Spain, Portugal, Ireland and Türkiye) and will evolve into a European Community of Practice (CoP) committed to provide the diversity of skills required in the emerging sector of Innovative Air Mobility (IAM) that is critical to our current and future quality of life. The project focuses on the provision of excellent vocational education and training (VET) aligned with the sector's needs, capacitation of young students, upskilling and reskilling of the workforce, sharing of resources and improving conditions for collaboration in upwards convergence, all contributing to address major European goals and priorities. The project includes an analysis of the IAM sector needs and opportunities, that will be the baseline to design roadmaps for high quality VET curricula and resources, to enforce VET-industry win-win collaborations, to promote the attractiveness and acceptance of VET and IAM, and to have a thriving CoP for knowledge sharing and exchange of best practices. The AIRMOB pathway to excellent VET includes the design of joint curricula and training courses, professional development of teachers and trainers, internships, mobilities and other multi-level collaborations relying on the countries and partners' diverse expertise to meet the needs of the IAM sector. The project consortium has 24 members and 11 associated partners, comprising Vocational Education providers, Higher Education Institutions, SMEs, Research Centres, Clusters, Regulatory Bodies and Municipalities. While the 5 CoVEs collaboratively provide vocational training solutions aligned with the needs of the local industry, the CoP plays a crucial role in strengthening cooperation for excellence between the CoVEs, facilitating stakeholders' engagement and information flow, and providing a platform for sharing resources and opportunities.

Keywords:

- Innovative Air Mobility; Urban Air Mobility

Project number: 101194074

Project name: Developing Skills and Capabilities for Innovative Air Mobility

Project acronym: AIRMOB

Call: ERASMUS-EDU-2024-PEX-COVE

Topic: ERASMUS-EDU-2024-PEX-COVE

Type of action: ERASMUS Lump Sum Grants

Granting authority: European Education and Culture Executive Agency

Grant managed through EU Funding & Tenders Portal: Yes (eGrants)

Project starting date: fixed date: 1 March 2025

Project end date: 28 February 2029

Project duration: 48 months

Consortium agreement: Yes
